

Robin Ring

CREATE YOUR VERY OWN
PECKING ROBIN RING

CRAFT PACK

- Robin Ring Template
- Glue Stick

WHAT YOU NEED FROM HOME/SCHOOL

- Felt Tips (Red & Brown)
- Scissors

INSTRUCTIONS:

Step 1: Print out your Artburst Robin Ring Template and cut out your rectangular ring strip (or draw an 8cm by 1.5cm rectangle on paper/thin card).

Step 2: Wrap your rectangular ring strip around your middle finger until you have a comfortable fit then carefully take the strip off your finger, keeping the ring shape. Glue the end to secure in place - you might need some help with this bit!

Step 3: Now it's time to colour your Robin Template with red and brown felt tips. Colour in both sides and don't forget to give it a red tummy and lots of brown feathers!

Step 4: Once it's all coloured in carefully cut out your robin outline, making sure you don't cut along the straight edge. Join in the middle and fold down the centre.

Step 5: Now unfold and lay out your robin, with the coloured side facing down. Apply glue onto both sides in the centre of your robin and stick your ring onto the inside, gently sandwiching in-between the sides of the robin. Make sure the bird's beak is facing you!

Step 6: To finish off, stick both beaks together. Now you have your very own pecking Robin Ring!

PRINTABLE

RING

Top Tip:

You can create your own robin by folding some paper in half, drawing a semi circle with a diameter of 8cm, which is roughly the same diameter size as a roll of tape. This is your robin size! Draw one side of your robin free hand, flatten out your semi circle to produce a circle and draw the mirror image of your robin. Don't worry if it's not exactly the same, this will add character to your bird!
